LATEST TELEGRAMS.

EGYPT.

Cairo, 15.—The Porte has informed the Khedive that any convention made with England must first be referred to the Sultan. Lord Dufferin approved the proposal of Chérif Pasha to create a council of state, to be composed of the leading notables, having legislative and administrative rights.

Constantinople, 15.—It is reported that the Russian ambassador has informed the Porte that Russia is willing to take the initiative in proposing early European conferences for the settlement of the Egyptian question.

The Sultan perseveres in his resolution to send a commissioner to Cairo, and also claims the right of investment of the Bey of Tunis.

Cairo, 15.—Suleiman Daoud was before the prosecuting commission to-day. He confessed giving an order to fire Alexandria, after having received peremptory command from Arabi Pasha. As the conflagration did not at first appear to be general, Arabi Pasha sent orders through Mahmoud to fire more places. Suleiman also states that Arabi Pasha on the 12th of July ordered them to take their soldiers to Ramleh palace and murder the Khedive while on the road to execute the order he met the president of the chamber and notables, who prevailed on him to return and remonstrate with Arabi Pasha.

Nouri Bey, the officer who had charge of the troops at Ramleh Palace, corroborates the suleimans statements.

Constantinople, 16.—The ministerial crisis is becoming acute. Said Pasha is trying to strengthen his own position by a modification of his cabinet and his supporters. Osman Bey, chamberlain and first favorite of the sultan, of the financial reform commission, invited all government departments to appoint delegates to assist in the examination of expenditures in its department.

Constantinople, 16.—The Porte has issued a circular to the powers inviting them to send commissioners to settle the Delémontian Montenegro frontier.

Railroad Business.

Chicago, 15.—In the U. S. circuit court to-day, Judge Drummond rendered a final decree for the sale of the Cleveland, Columbus and Indiana Central Railroad, under a foreclosure of the mortgage. The indebtedness amounts to over \$14,000,000. The decree stipulates that the road must be sold in its entirety and for not less than \$13,000,000.

It is rumored here to-day that the Rock Island Railroad has met the out of the other roads running between Chicago and St. Paul, by making the rate \$5 from St. Paul to Milwaukee, thus carrying the war into the camp of the enemy. The Rock Island does not run to Milwaukee, but can bring passengers to Chicago and furnish them tickets to Milwaukee over other lines for \$2.75, leaving the Rock Island \$2.25 for hauling from St. Paul to Chicago. The regular rate is \$19.50.

Chicago News.

Chicago, 15.—A number of the younger members of the board of trade were suspended to-day for indulging in the pastime of knocking off the hats of older members.

This afternoon the body of Dr. J. G. S. Mohr was found in his office. He evidently had been dead some days. No marks of violence, and the cause of the death is not known.

The official canvass of votes cast at the recent election was completed this afternoon. It does not change results as already announced.

The application for trial in the insanity case of Mrs. Scoville was again continued to-day, her attorney stating that he had received a dispatch from her saying she intended to be present, but missed the train. Her husband said, "She always misses the trains."

Robbery and Murder.

Dallas, Tex., 15.—In DeWitte County, two escaped Mexican convicts met James G. Sparma on the road and shot him. They then beat out his brains with a gun and robbed him.

Taylorsville, N. C., 15.—Burglars entered the residence of Wm. A. Pool, clerk of the Superior Court of Alexander County, bound and gagged him, and made their escape with \$700 belonging to the mayor.

Compliments.

New York, 16.—The Grenada, Miss., *Sentinel* has the following unique telegram, which, by authority of General James B. Chalmers, was sent to Ben. Butler, verbatim, by the editor of this paper on Thursday night:

GRENADE, MISS., November 9. To Gen. Butler, Lowell, Mass.

Port Pillow Chalmers to Ben Butler; both in. Shake.

(Signed) JAS. R. CHALMERS.

A Mandamus.

St. Louis, 15.—An answer to the alternative writ of mandamus, served to City Registrar Berg, on Monday last, to compel him to count for Colonel Brodhead in certain disputed precincts the votes cast at the late election in the Ninth Congressional district, was made to-day in the supreme court by the city councilors, and after some preliminary proceedings December 1st was set to hear arguments. Meantime the poll books will be sent to Jefferson city and depositions will be taken here. Colonel Brodhead will make vigorous efforts to have these disputed returns counted in his favor.

Foreign.

Paris 15.—President Grevy is much better. He drove out today. A duel was fought by Cornudet, deputy, and Delignieres, journalist; the latter was wounded, not seriously.

Duclercq, President of the Council and minister of foreign affairs, to-day, at a reception, promised several deputies that government would, in a few days, present the chambers with a bill for ratifying treaties concluded by DeBrazza with the chiefs on Congo River.

France has reopened negotiations for a treaty of commerce with Holland.

Berlin, 15.—Negotiations are progressing for a Franco-German literary convention.

Greece has sent Germany copies of antiquities found at Olympia.

Berlin, 15.—The abolition of Russian legations at minor German courts is due to the representations of Bismarck that Russia should have an ambassador only at the capital of the German empire.

London, 15.—The rumor of ministerial changes is semi-officially denied. Gladstone contemplates retiring from the chancellorship of the exchequer, but will retain the premiership. All subsequent reconstruction of the ministry is unsettled.

Lord Granville, foreign secretary, asked explanations from Duclercq, minister of foreign affairs, on the action of France towards Madagascar. It is reported that England, Portugal and Belgium proposed to object to French acquisition of territory on the Congo River.

Vienna, 16.—The printer's strike extending, several newspapers are again unable to appear to-day. The authorities are trying to induce the strikers to reduce their demands on the grounds that it is beyond the power of the owners of newspapers to grant them. No disturbances have occurred.

The new Roumanian minister has been entrusted with the mission to arrange a visit of the King of Roumanian to King Humbert, Italy.

London, 16.—The *Times* Cairo dispatch says: The deficit in the current financial year is estimated at \$209,000,000 against an expected \$282,000. The deficit, together with the cost of English occupation and Alexandria indemnities, will constitute a heavy charge upon the future revenue of the country.

The Sultan's Dudas assertions and Arabi Pasha's denials, by themselves, are valueless, as both have equally wide reputations as liars.

Times Vienna dispatch:—Baron Habner, president of the Austrian committee on foreign affairs says that thoroughly friendly relations exist with Russia. The emperor shows by deed his pacific intentions, thus defeating the fears raised by transient occurrences.

London, 17.—The admiralty has received a telegram from Suez, stating that Arabs took Palmer in search of the expedition party to a place near where Palmer and his companions were murdered. There were found buried in the ground Palmer's dispatch boxes and bag, containing \$1,200.

Madrid, 16.—The Spanish government is preparing to send a force to occupy the ports of Santa Cruz and Demarra on the coast of Morocco, to protect the fisheries. The Sultan of Morocco has protested against the occupancy.

Alabama Affairs.

Montgomery, Ala., 15.—The senate organized by electing George P. Harrison president, and L. Clay secretary. The house chose W. F. Foster speaker, and D. W. Melver secretary. The legislature is democratic by an immense majority. The governor's message makes an exhibit of the state's affairs. The bonded debt of the state is \$9,407,800, and annual interest \$344,000; Cash in treasury, October 1st, the close of the fiscal year, \$421,000. There has been considerable increase in the assessed value of the property in the state, it being nearly 25 per cent. in the last three years. Reduction of taxation is recommended, as state expenses have been greatly reduced during the last few years.

Complimentary.

New York, 16.—A new paper, the *Morning Journal*, appears to-day for the first time, and is evidently patterned after the *Truth, Sun* and *Star*, being the same size as the latter. It contains no telegraphic news except what it steals or fabricates, and is not worth a thought as a news factor.

Thurlow Weed, 85

New York, 16.—To-day is the 85th birthday of the veteran Thurlow Weed. Contrary to expectation the excitement seems to benefit Weed instead of proving injurious to him. He took more nourishment than he had for any day for six weeks and ate his food with a keen relish. Last night he was feebly and fell asleep without taking anodyne.

U. P. Earnings.

Boston, 16.—Ames, Boston director of the Union Pacific railroad, says the earnings of the company for the current year, partly estimated, shows a surplus of \$4,500,000, floating (debt) only \$2,700,000, which latter will be entirely extinguished by the immediate placing of \$3,000,000 of collateral trust bonds, already negotiated. Ames says the company will, next year, pay 5 per cent. dividends.

LORE JACK, Mo., Sept. 14, 1879. I have been using Hop Bitters, and have received great benefit from them for liver complaint and malaria fever. They are superior to all other medicines.
